

**FOR YOUR SAFETY**

**High Tide**  
Check the tide tables before walking on the beaches. Rising water can trap you against a cliff with no possibility of escape.

**Tsunami Hazard Zone**  
If you feel an earthquake, think "tsunami!" Go to high ground or inland and stay there.

**Heavy Surf**  
Very large, powerful "sneaker" waves can occur at any time. They will quickly pull you into the water and survival is unlikely. Never turn your back on the ocean.

**Steep Cliffs**  
Cliffs are likely to crumble and slide. Climbing on them or walking near the edge invites catastrophe. Because of falling rocks, walking below cliffs is dangerous. Keep away!

**Falling Limbs**  
Tree limbs can fall during high winds, especially in old-growth forests.

**Yurok Reservation**  
The lands within one mile of each side of the Klamath River from the Pacific Ocean to 43 miles upstream compose the Yurok Reservation.
